## About Us

Hickman Environmental Services was founded in 1999, building on over 20 years of experience in the water and wastewater treatment industry. Our founder, a veteran of the U.S. Army, transitioned into this field as a Water and Wastewater Treatment Plant Operator, gaining invaluable expertise that laid the groundwork for our family-owned and operated business.

Specializing in the servicing, repairing, and installation of pumping, water and wastewater treatment process equipment, we have established strong partnerships with industry leaders, including Smith & Loveless. This collaboration has allowed us to provide our clients with top-quality solutions tailored to their specific needs. With a commitment to excellence, we have proudly

served customers across the United States, addressing a wide range of water and wastewater equipment challenges. At Hickman Environmental Services, no job is too small or too large, and we take pride in our ability to deliver reliable and effective services to every client.
